OPERATIONAL ACTIVITIES OF THE UNITED NATIONS FOR INTERNATIONAL DEVELOPMENT COOPERATION

Progress in the implementation of General Assembly resolution 47/199

Report of the Secretary-General

Addendum

Comprehensive statistical data on operational activities for development for 1992

SUMMARY

The present report has been prepared in compliance with General Assembly resolution 35/81 of 5 December 1980. It complements the 1994 progress report on the implementation of General Assembly resolution 47/199 and provides detailed statistical data on resources channelled through the organizations of the United Nations system for 1992.

As requested by Member States, information is also provided on the procurement of goods and services through the United Nations system.

INTRODUCTION

1. The present report has been prepared in accordance with the requirements specified in General Assembly resolution 35/81 of 5 December 1980.

2. It is divided into three parts, each consisting of a number of tables that allow the subject to be examined from different angles and perspectives:

(a) Contributions from Governments and other sources for operational activities of the United Nations system;

(b) Expenditures on operational activities of the United Nations system. Part B also contains tables on expenditures on operational activities of the United Nations system in the least developed countries;

(c) Procurement activities of the United Nations system prepared by the Inter-Agency Procurement Office (IAPSO) on the basis of the 1992 annual statistical report on agency procurement activities.

3. The main sources for the statistical tables are the financial statements of the United Nations funds and programmes, including the World Food Programme (WFP), internal reports of the World Bank and the International Fund for Agricultural Development (IFAD), and previous statistical addenda to the reports on operational activities of the United Nations system.

4. Tables A-1, A-5, A-6 and B-1 cover information for 1988-1992, while all other tables deal with 1992 data only. Graphs are used in association with a number of the tables to illustrate trends and facilitate comparison.

Note on statistical information

General note

5. Coverage, definition and sources for the figures used in this report are consistent with those for previous reports. Modifications have been made to data presentation, column headings and table titles in the interest of greater clarity and internal consistency. Explanations for special cases, or instances in which table totals do not match, have been given in the footnotes to tables.

Definitions and explanations

6. For information on the sources of data, see paragraph 45 of the first (1981) annual report (A/36/478, annex) and the footnotes to the tables.

7. The data represent final figures for 1992. Should any further revisions or updating later prove necessary, this would be communicated in a corrigendum or in the next statistical report.

8. Data on contributions refer to contributions received from Governments and other sources by organizations in the United Nations system, and the net profits

from the United Nations Children's Fund (UNICEF) greeting card operation. Data on other income, related to resource transfers from one agency of the system to another, interest, and the like are excluded.

9. Data on expenditures and disbursements represent the support provided by organizations to the programmes and projects of developing countries; administrative, programme and other support costs, where identifiable, are excluded.

10. UNICEF and WFP carry out both development assistance and some humanitarian or emergency assistance activities. Because of the difficulty of identifying these activities separately, the related contributions and expenditures are all grouped under development assistance.

11. With regard to loans, net disbursements represent gross disbursements less repayment of principal; net transfers represent net disbursements less interest and other charges.

12. The expression "United Nations funds and programmes" refers to the funds and programmes listed by the General Assembly for participation in the annual United Nations Pledging Conference for Development Activities, to the resources for operational activities of the organizational entities of the United Nations (see table B-5), and to other United Nations trust funds pertaining to development activities. Next year, data for the United Nations Drug Control Programme (UNDCP) will also be added. For 1992, contributions to UNDCP accounted for $74.8 million.

13. The designations employed and the presentation of the material in the present report do not imply the expression of any opinion whatsoever on the part of the Secretariat of the United Nations concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries.

14. The term "country" or "State" as used in the present report also refers, as appropriate, to territories or areas.

15. References to dollars ($) are to United States dollars unless otherwise stated. A full stop is used to indicate decimals. Two dots (..) indicate that data are not available or are not separately reported. Parentheses () indicate a deficit or decrease, except as otherwise indicated. A dash (-) indicates that the amount is nil or negligible or the item is not applicable. A hyphen (-) between dates representing years signifies the full period involved, including the beginning and end years.

16. Details and percentages in tables do not necessarily add to totals, because of rounding.

17. The following abbreviations have been used:

b/ Includes extrabudgetary expenditures by WFP project expenditures for development activities and emergency operations. Of the latter, most was financed from the International Emergency Food Reserve and the remainder from WFP general resources.

c/ The major share of such expenditures is financed by WHO.

d/ I.e., from funds not elsewhere specified in the table. Also included are expenditures financed from government "self-supporting" contributions, as noted in memo item.

e/ Loan disbursements.

f/ Includes expenditures by UNCHR, UNWRA, UNDRO, and United Nations trust funds for emergency assistance (including special economic assistance programmes). Regarding expenditures for WFP emergency operations, see footnote (b) above.

g/ Represents services engaged by Governments receiving loans and credits from international development banks or resources from bilateral donors.

h/ I.e., gross disbursements on "training" and "consultants" embodied in IBRD loans and IDA credits to borrowers.

i/ The amounts of recipients governments' own resources spent, which are included above in the figures for lihe 7 (extrabudgetary) are here separated out for reference.

C. 1992 ANNUAL STATISTICAL REPORT ON AGENCY PROCUREMENT ACTIVITIES 1/

At the initial request of the Director-General for Development and International Economic Cooperation (DIEC) in 1984, IAPSO prepared a statistical report on operational activities for Development of the United Nations system. This report (A/39/417) was submitted to the General Assembly at its thirty-ninth session. The General Assembly, by resolution 39/220, established the need for such reporting on a recurrent basis and encouraged agencies to cooperate with IAPSO in this important exercise. The annual statistical report is therefore prepared by IAPSO based on regular follow-ups with the reporting agencies.

At its thirty-sixth session, the UNDP Governing Council requested IAPSO to include data on other components of technical cooperation, such as international and national project personnel, United Nations Volunteers and fellowships, thus providing a more complete picture of operational activities. The Director-General (UN/DIEC) followed up that request in November 1990 in a letter addressed to all organizations of the United Nations system.

Methodology

In preparing the present report, IAPSO issued a letter in November 1992 to all organizations of the United Nations system, requesting submission of statistics broken down for goods by country of procurement, professional services by country of head office, international and national project personnel, United Nations Volunteers by country of nationality and assignment, and fellowships by country of nationality and placement. Tabulations were developed using Lotus 1-2-3 software and agencies were supplied diskettes for direct data entry. Agencies were requested to provide the specified data for all United Nations sources of funding and UNDP funding separately.

All sources of funding

In general, responses from the various organizations of the United Nations system have been encouraging and the quality of the data provided has improved. A few organizations are still not able to provide the requested data.

The present report is based on data received from ECA, ECLAC, ESCAP, ESCWA, FAO, IAEA, ILO, IMO, ITC, ITU, UNCHS, UNCTAD, UNDP/OPS, UNEP, UNESCO, UNFPA, UNHCR, UNICEF, UNIDO, UNRWA, UNU, UPU, UNV, WFP, WHO, 2/ WIPO, WMO, WTO, the World Bank (grants-in-aid only), and the former Department of Economic and Social Development, 3/ the Department of Humanitarian Affairs and the Purchase and Transportation Service of the United Nations Secretariat, including feedback

from 1,094 UNDP field offices regarding projects under national execution (NEX). In the case of ICAO, all data, except for data on the procurement of goods and services, were received.

UNDP funding only

Executing agencies for UNDP reported data for all elements of technical cooperation with the exception of ICAO (goods and services). In order to present the above statistics more comprehensively, UNDP field offices were further asked to provide similar data related to national execution (NEX). Procurement is based on projects financed by indicative planning figures (IPFs), special programme resources (SPRs), the Special Measures Fund (SMF) for Least Developed Countries, Special Industrial Services (SIS) and cost-sharing.

The term "UMDC" (under-utilized major donor country) is used by UNDP to designate those countries (Canada, Denmark, Finland, the Netherlands, Norway and Sweden) whose return values in relation to their voluntary core contributions to UNDP are low compared with other industrialized countries. The term "NEX" (national execution) is a cooperative operational arrangement whereby the Government assumes responsibility for execution of UNDP-financed technical assistance projects and programmes as requested by it and agreed by the United Nations Development Programme (UNDP).

General

The report comprises two parts: part 1 covers all United Nations sources of funding; part 2 covers UNDP funding only.

The term "developing countries" relates to those countries for which a UNDP indicative planning figure (IPF) is allocated.

The term "procurement" refers to the acquisition of both goods and services. The scope of goods covers both equipment and supplies; services encompass hiring of contractors or consultants to carry out services under subcontracts, in contrast to the hiring of individual experts and consultants.

It is noteworthy that in 1992, a database - UN-EARTH - was developed by the Advisory Committee for the Coordination of Information Systems (ACCIS), to which IAPSO also provided data.

Future reporting

At the 18th meeting of the Inter-Agency Procurement Working Group (IAPWG), held in Argentina in April 1993, IAPSO was requested to propose to agencies improved guidelines for the preparation and publication of data, in order to provide the statistics for technical and non-technical cooperation separately, excluding housekeeping expenditure.

Total procurement trend

There was a substantial increase in the total value of procurement; this can be attributed to the increase in the number of agencies reporting statistical data.

Goods (equipment) volume increased by 1.4 per cent over 1991, while subcontracts increased by 51.3 per cent in dollar terms.

Procurement from developing countries

The percentage of procurement from developing countries has increased by 7.86 per cent as compared to 1991.

The increase in procurement from developing countries is 14.5 per cent over the 1991 figures in dollar terms.

* From 1991 onwards, additional agencies reported data for the first time covering UN Peacekeeping Logistics (WFP UNIPEG). Logistics of USD [illegible] million returned by WFP is added to the service sub - total since country - wise breakdown is not available. Procurement from Developing Countries amounting to USD 40 million out of logistic cost of WFP is estimated based on 1992 data.

1990 - 1992 exclude UNIPEG and WFP.
